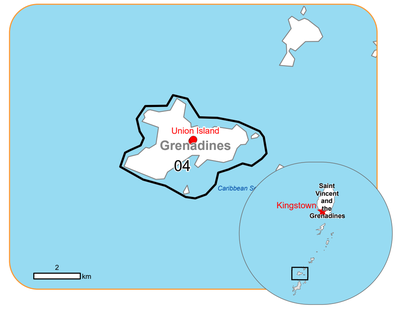
GLIDE number: TC-2024-000105-VCT
Int. Charter Act. ID: N/A

GDACS ID: TC 1001067
Product version: 1

EMSR734 - AOI04
Storm in Saint Vincent and the Grenadines
UNION ISLAND

Situation as of 02/07/2024 14:55 UTC

Grading - Overview map 01



Potentially affected population
Not available

Affected Built-up and Transportations

Built-up
156 No.

Detail 02
Big Sands
Clifton
Ashton

Crisis Information

Built Up Grading
- Destroyed
- Damaged
- Possibly damaged

Transportation Grading
- Airfield and Heliport, No visible damage
- Local road, No visible damage
- Track, No visible damage
- Airfield runway, No visible damage

Event: On the 01 July 2024 at about 06:00 UTC the Tropical Cyclone BERYL-24 is reported to have affected Barbados, Grenada, St Vincent and the Grenadine Islands. The event is still on-going and over the next 48 hours, very heavy rainfall, strong winds and storm surge are forecast over the Windward islands. Copernicus EMS Rapid Mapping is requested to provide initial rough estimation, flood extent and damage assessment emergency mapping.

Data sources and analysis: Pre-event image: ESRI World Imagery © DigitalGlobe (acquired on 02/10/2021, resolution 1.0 m).
Post-event image: WorldView-2 © Maxar Technologies, Inc. (2024), (acquired on 02/07/2024 at 14:55 UTC, resolution 0.5 m).
