- Event**
On the 09 July 2024, a wildfire is reported to have affected Gjirokastra and Vlorë regions, Albania. Actually, the fire situation is under control and there is no existing danger to the villages. National Operational forces and two Canadian planes from Greece are working to extinguish the fire. Copernicus EMS Rapid Mapping is requested to provide wildfire extent damage assessment emergency mapping.

The current burnt area cumulates all bunt area extents from previous post-event products.

Details on this activation and service conditions available through the QR code or at the link: <https://rapidmapping.emergency.copernicus.eu/EMSR736>

Consequences within the AQI						
	Unit of measurement	Destroyed	Damaged**	Possibly damaged*	Total affected**	Total in AQI
