	Current	Forecast	
	Jul 24, 09:05 UTC	Jul 25, 09:05 UTC	Jul 26, 09:05 UTC
Wind direction and speed	 13 km/h	 14 km/h	 16 km/h
Temperature and relative Humidity	 28°  39%	 26°  58%	 24°  69%

Data retrieved from ECMWF on Jul 24, 09:05 UTC. Calculated at: 44.762°N, -0.917°E.

Event: On 22 July 2026 at 18:00, a wildfire was reported to have affected Saumos, in the Nouvelle-Aquitaine region, France. The fire is ongoing and poses a significant threat to local communities, critical infrastructure, forests and nearby natural resources. Current weather conditions may favour its rapid spread, with possible population displacement and severe environmental damage. Copernicus EMS Rapid Mapping is requested to provide wildfire extent mapping and damage assessment emergency mapping.

Data sources and analysis: Pre-event image: Sentinel-2 (2026) (acquired on 21/07/2026 at 10:56 UTC, resolution 10 m).
Post-event image: Legion © Vantor (2026), provided by European Space Imaging (acquired on 24/07/2026 at 09:05 UTC, resolution 1,6 m).
This image is used as background image.
All images are provided under COPERNICUS by the European Union and ESA, all rights reserved.

The thematic layer has been derived from post-event satellite image using a semi-automatic approach.

Due to clouds, the burnt area delineation is not complete.

Map produced by ITHACA released by SERTIT on the 25/07/2026.

Details on this activation and service conditions available through the QR code or at the link: <https://mapping.emergency.copernicus.eu/activations/EMSR899>

Data Access:
All data displayed on the map(s), as well as Land Use - Land Cover layer(s), are available in the Crisis Information Package and the Base Layer Package (for reference data). The table above is available in editable format in the Crisis Information Package. All products and data are also available for download on the portal.

Estimated Population:
Estimated population is based on Copernicus Global Human Settlement Layer (GHSL) dataset. Additional population datasets and analysis are available in the summary table.
